

Safeguarding

Making vulnerable lives safer

Liberty Safeguarding is an innovative insurance and risk-management proposition for organisations that provide services to the most vulnerable in our society.

We recognise that the insurance industry has a proactive role to play in the safeguarding of children and vulnerable adults. That's why we're delighted to have consulted with the NSPCC, a leading charity working to help prevent abuse and helping those affected to recover.

As a mutual company, we focus not on shareholders and stock markets, but on our policyholders and broker partners. We take time to get to know your business and what you need from your insurance solution.

Our underwriting involves a thorough analysis of your risks, backed by a deep understanding of your industry, while our integrated underwriting, claims and risk management offers you a creative risk-transfer solution.

Solutions for your most complex risks

We blend tailored insurance coverage with a suite of risk-management tools, supporting you to help strengthen your safeguarding procedures while promoting best practices. This approach enables us to take a more progressive view on abuse coverage, ensuring that you're protected for the long term with a person-centred solution.

With you for the long term

Being a mutual means we're consistent and here for the long term. Our experienced teams are resourceful, responsive, and empowered to make decisions quickly. You'll benefit from our technical underwriting capabilities, the strength of our relationships with our broker partners, and our unique approach to claims service.

Because what's good for you, is good for us.

Continuity in a changing world

Some clients have been with us for over 20 years. Why do they stay so long? Because we have a culture of flexibility and transparency. Quite simply: we do the right thing.

Your business doesn't stand still and neither do we. We are constantly evolving our products and services, investing in people and resources, and building our global distribution network – bringing you continuity and reassurance in a changing world.

A sustainable future

Our purpose is to help people embrace today and confidently pursue tomorrow. To fulfil this purpose, we are committed to sustainability and careful consideration of environmental, social and governance (ESG) issues.

Insurance can be a force for good and we have a role in supporting the transition towards a low-carbon future. We are supporting Climate Transition Pathways, currently working to provide a number of benefits to companies with accredited transition plans, in addition to continued access to insurance capacity. For instance, we are exploring how to meet the challenge of the transition with longer-term and more expansive solutions.

Unlocking opportunities

With over a century of insurance experience, we've learned a thing or two about risk. We're dedicated to developing products and solutions for our clients, whether a variety of specialist coverages, a customised wording, or guidance on emerging exposures.
